Winter and Spring WHOLESALE LIST

DECEMBER, 1954

Introducing CAROLYN TUTTLE

OUR NEW SEEDLING CAMELLIA JAPONICA

Provides quantities of big rose-opal pink peony-form flowers similar to Débutante but deeper in color and with many more petals. Flowers range from 3 1/2 to 4 1/2 inches in diameter and bloom profusely from December to March.

The shrub is particularly outstanding, growing rapidly upright and yet dense and compact, with deep green crinkled foliage. It roots easily and a November graft will grow to a relatively bushy plant 12-15 inches tall, with some buds, in one year.

The plants bud heavily, and flowers have proven good keepers when shipped commercially. We have had good success growing the plant here in Altadena in one-half day sun.

Each plant provided with a 3 1/2 x 5 1/2 inch full color picture label containing cultural directions.

Retail Prices:

1-gal., own root.....\$ 5.00
1-gal., 1 yr. grafts.....7.50

5-gal. grafts.....\$12.50
6-gal. grafts.....17.50

WINTER and SPRING WHOLESALE LIST

December 1954

Bare-Root Shade Trees Field Grown Ornamentals — Balled Shrubs, Trees, Vines, Perennials, Camellias Lining-Out Stock

This list represent the varieties we have to wholesale at the present time. All stock listed is in excellent condition, ready for immediate sale. Other stock not listed will be reaching saleable size monthly. We invite your inspection.

Delivery: Free on our regular truck routes. Deliveries to other points may be arranged.

Prices subject to change at any time.

Warranty: Tuttle Bros. Nurseries exercise great care to see that all plants are labeled true to name. However, if any plants are mislabeled, it is understood we will not be liable for any amount in excess of purchase price of plants so mislabeled. Orders must be accepted by the purchaser under these conditions or be returned at once.

BARE-ROOT SHADE TREES

Straight, heavy-caliper, well branched trees. Dug with bushy, fibrous root systems.
